**Tesla opens new Supercharger in Hungary and underlines commitment to increase Supercharger-footprint in the market**

Budapest-Pécs, Hungary – Tesla has opened its first V4 Supercharger station in Hungary, located at Shopland Pécs bevásárlópark on Makay István street. The new Supercharger features 8 charge posts with an output of up to 250 kW each and is available not only to Tesla drivers - via Tesla app -, but also to owners of other electric vehicles as they are equipped with longer charging cables to increase compatibility and you can use it without any application paying simply by credit card soon. In just 15 minutes, you can recharge up to 275 kilometres of range. The location offers a wide selection of retailers and restaurants and was also a customer-requested site through Tesla's "Voting Winner" program. This 11th Supercharger site underlines the continuous expansion of Tesla V4 Superchargers across the country. With this initiative, Tesla is actively promoting sustainable mobility in Hungary. Telsa is operating +120 charge posts on 11 sites.

The new site is the first to be realized in partnership with Shopper Park Plus, a retail group prioritizing green real estate investments and aiming to reduce emissions in their assets. Shopper Park Plus, in cooperation with Adventum Group, supports Tesla in selecting strategically important locations and efficiently expanding the charging infrastructure, making access to e-mobility easier for a fast growing number of users. Tesla is bringing additional service for customers and increased foot traffic to the commercial area.

**Invitation to the Opening Event**

To mark the opening, Tesla is hosting a special event where attendees will have the opportunity to test drive the latest Tesla models and experience the new charging infrastructure firsthand.

**Date:** October 17, 2025
**Address:** Pécs, Makay István út 7, 7634 Hungary

## About Shopper Park Plus

SPP, which owns a portfolio of 22 retail properties — 4 in the Czech Republic, 4 in Slovakia,14 in Hungary — through its subsidiaries, manages a total gross leasable area (GLA) of over 390,000 square metres, shared by nearly one thousand tenants. In the long term, SPP aims to become a leading owner and operator of retail park portfolios in the Central and Eastern European (CEE) region, with further regional expansion plans already under consideration.

## About Adventum Group

Adventum Group focuses on CEE real estate investments and is entirely owned by management. It has been operating under the Alternative Investment Fund Managers Directive since 2016 with fund management companies established in Hungary and Malta, and with a total AuM in excess of EUR 1.3 billion. Adventum Group's ESG strategy is focused on the reduction of lifetime CO2 emission and guided by international sustainability agenda and conventions such as the Paris Agreement. The Group's personnel include highly experienced real estate professionals with CFA, NRW and MRICS qualifications and a proven track record in the CEE region. The management team has so far executed investments in the CEE region over a total value of EUR 2.2 billion.
